TQH43 FREE STANDING

Features and Benefits :

- 100% made in France
- 5 years warranty
- Electronic Remote control
- 360° rotating unit
- "Clean glass" offers an incredible panoramic view of the flames
- Integrated system combining primary combustion and secondary combustion
- High efficiency and low emissions, meeting international standards
- Precise control of the stove's burning rate.
- Start-up air to facilitate lighting
- Airtight heating body made of cast iron and steel
- Woodbox® Combustion Technology
- Comfort: thermostatic temperature control
- Spacious ash pan
- Non stop combustion in "night" mode (up to approximately 10 hours)
- Easy to load! Front and side doors
- Top or rear flue connection
- Long life cast iron internal protection plates

The new Chazelles THQ-43 appliance offer the combined pleasure of simple operation plus exceptional energy efficiency. Reach out, press the button, and the flames will obey your commands! A calm fire, a roaring blaze or dancing flames, you decide.

This technology patented preheats the combustion air to over 200°C and delivers it slowly and evenly over the fire, to obtain spectacular flame effects, from roaring fire to multicoloured secondary combustion flames that dance above the logs.

The tempo of the fire will intensify or slow down at the touch of a button. The remote control is equipped with a thermostat which lets you select your desired temperature, and the stove will regulate itself automatically.

Who says you can't play with fire without getting burned. The remote control kit allows you to adjust the tempo of the fire without having to even get up. The remote can also be used to set your stove to a desired temperature and it will adjust itself accordingly. This multifunction remote control kit comes with a stylish handset with clear, digital displays and a keypad which is easy to use and program. **360° fully rotating stove and side door for convenient loading.** Flexibility is central to the TQH Concept. This model is offered with a choice of 2 stands, all of them rotate 360 degrees. This allows you to enjoy the comfort and warmth of the fire from all angles of the room. There is also a simple rotational kit available, which allows your TQ stove to rotate atop any stand of your own creation. The TQH models feature a side door for a convenient wood loading.
